Key planning matters

- Design
- Neighbouring amenity

Summary of officer recommendation

- The scale, massing and design of the extensions, and associated alterations is acceptable in this location. The measures proposed in relation to climate change and sustainability are welcomed and align with the Climate Change SPD.
- Whilst the proposed development would have some limited impact on the amenity of neighbours, it would not be to an unacceptable level.
- The recommendation therefore is to grant planning permission subject to the conditions set out within the officer report.
- The conditions relate to the standard time limit (3 years); approved plans; and obscure glazing.
