Consider longer term financial planning, greater level of sensitivity analysis and scenario planning	The council currently produces a three year plan on the basis that it is hard to estimate beyond this period. Production of a plan for a longer period which could cut across several borough and general election periods would be significant work. However the proposal is an interesting one which will be considered.	Obtain copy of the MTFS produced by Sevenoaks DC to ascertain the level of detail and to talk to the finance team to ascertain how it is prepared. Consider a fundamental review of project management, risk management and procurement	There have been reviews undertaken on both the AG&M project and the cemetery and crematorium – both of which provide useful lessons learnt as to whether it is the process, culture or application. The peer review team are right to suggest that given the direction of travel it is important to ensure that our risk management, procurement and project management processes are able to support the pace of change.	SLT/SM to have a session considering the lessons learnt from both the cemetery and crematorium project and the AG&M project and consider what lessons learnt mean for existing processes. Risk management training is already planned for all managers at the end of October. Consideration should be given to separate risk sub groups for key programmes and projects. Ken Dale Business improvement manager
Consider ways to engage and consult more widely the public and customer through consultation	Consultation is undertaken on specific issues rather than a blanket approach on all services. This has been found to be more effective as it targets specific issues and is a more cost effective way of engaging with the public.	As part of the development of the corporate strategy for 2015/18 undertake a consultation exercise to ensure that there is wider engagement on the strategic direction of travel for the council.
