	SUPPORTED GROWTH	(RECURRING)						1							
			The upgrade of the telephony software version is												
			essential to maintain support with the												
			manufacturer. We are unable to purchase any												
			additional telephony licences under the current												
			version. This will enable us to have more up to												
			date versions of the contact centre software which												
	CA&ST	Tolophopy quitch upgrade	is essential for supplying telephony to our services.										70,300		
1	CAASI	Telephony switch upgrade	Maintain aar nark aharraa at aurrant lauala i a na							_			70,300		
2	Built Environment	Freeze car parking charges	Maintain car park charges at current levels - i.e. no inflationary increase	106,500	106,500	106,500				106,500	106,500	106,500			
2	Built Environment	Freeze car parking charges	The upgrade of the car park management	100,500	100,500	100,500				100,500	100,500	100,500			
1			technology at selected sites such as Regent												
			Arcade is essential as the existing management												
		Car park management	systems and hardware have now reached the end												
3	Built Environment	technology	of their life cycle.										250.000		
5	Duit Environment	teermology	The upgrades will ensure continued compliance in										200,000		
			data collection and storage, ongoing viability of the												
			management and operating system and will												
			release resources needed to provide ongoing												
			service delivery
