1. Purpose of the Policy

This policy sets out Cheltenham Borough Council's ("the council") framework and approach for the management of street trading in the borough.

Through the street trading scheme the council aims to regulate:

1. the location of street traders;
2. the number of street traders; and
3. the types of goods to be sold or offered for sale.

The scheme also aims to:

1. prevent the obstruction of the streets by street trading activities;
2. sustain established shopkeepers in the town;
3. maintain the quality of the townscape and add value to the town;
4. encourage inward investment; and
5. promote quality markets.

In doing so, the council recognises the importance of licensed businesses to the local economy and the character of the area whilst trying to ensure that the activities do not cause nuisance or annoyance to the people in the area.

This policy will guide the council when it considers applications for street trading consents ("consent"). It will inform applicants of the criteria against which applications will be considered.

2. Review of the Policy

It is the intention that this policy will be reviewed every 3 years or more frequently should it be deemed necessary.

Notwithstanding the policy review cycle, the council will proactively review street trading in the consent streets to identify any new street trading opportunities.

3. Legislation & Designation of Streets

The council has resolved that Schedule 4 to the Local Government (Miscellaneous Provisions) Act 1982 ("Act") should apply in the borough. Under Schedule 4 of the Act the council can regulate street trading by designating streets as 'consent streets', 'licence streets' or 'prohibited streets'.

The council has designated the entire borough as consent streets. A consent street is a street in which street trading can only take place if the consent of the local authority has first been obtained.

It is a criminal offence to engage in street trading in a consent street without consent.

There are currently no licence streets or prohibited streets within the borough.

4. The Licensing and Determination Process

This part of the policy sets out how the council will deal with applications for consent in the borough.

Applications can be made for:

1. a “Fixed Pitch” (see “Permitted Locations” below);
2. a “Roaming Consent” (Borough wide consent when a schedule of stops/streets is included with the application i.e. ice cream vans etc.)
3. A “Market” (see “Markets” below)

4.1 Permitted Locations

Consents are limited to the sites identified in **Annex 1**.

Sites can remain with the same person for a number of years. In the event of the consent being revoked, surrendered or if it lapses without being renewed, the council will invite new applications for the vacant site on its website. This might be at any time of the year.

If more than one application is received for any new or vacant pitch, the applications will be referred to the council’s licensing committee to consider the applications. The applications will be assessed against the council’s “criteria for assessment” (see **x**).

4.2 Assessment Criteria

In considering applications for the grant or renewal of a consent the following factors will be considered:

- **Needs of the Area** - The retail offer of each individual pitch. The goods complement and do not conflict with the goods sold by other retailers (including other street traders) within vicinity. This criterion permits the council to undertake a qualitative assessment of the goods to be sold by each competing applicant against those on sale in the adjacent area. The council does however recognise that the surrounding retail offer is subject to change therefore it will apply this criterion to applications for new or renewal applications.
 - **Public Nuisance** – Whether the street trading activity represents, or is likely to represent, a substantial risk of nuisance to the public or properties in the vicinity from noise, misbehaviour, emissions, smells etc.
 - **Public Safety** – Whether the street trading activity represents, or is likely to represent, a substantial risk to the public from the point of view of obstruction, fire hazard, unhygienic conditions or danger that may occur when a trader is accessing the site.
 - **Appearance of the Stall or Vehicle** – Trading units must enhance the visual appearance of the street rather than detract from it and be constructed in a suitable scale, style and of appropriate materials. It should also be designed to be fully accessible for all customers and advertising material must be
- 

limited to the name of the stall, the type of product sold and a simple price list and be professionally designed and printed. The council will generally not permit trading units over 3 meters tall to avoid obstruction of sight.

- **Environmental Credentials** - The impact of the proposed operation on the local environment including street surfaces, tree pits & materials, power supply, carbon footprint, supply chain, packaging, waste minimisation, waste disposal and waste created by customers.

5. Renewals

Consents are issued for a period of up to one year.

Consent holders should re-submit their application if they wish to continue to trade at least one month before the expiry of their current consent. As a matter of convenience, the council will send renewal reminders to consent holders. However, the council is clear that it remains the consent holder's responsibility to ensure that their consent is renewed in time.

If, without reasonable excuse, a renewal application is not made before the expiry of the current consent it will expire and the pitch will become available. A new application must be submitted in accordance with the procedure set out above ("[Application for Consent – Permitted Locations](#)").

The council may consult further to determine if the street trader is a cause for concern or has been the subject of complaints.

Where a renewal application has been made and:

1. there have been no significant complaints or enforcement issues;
2. all fees have been paid on time; and
3. there has been no significant change to the retail environment in the vicinity of the trading location

the consent will normally be renewed.

6. Transfers

An issued consent cannot be transferred or sold to another person. The sub-letting of a pitch is prohibited.

7. Markets

There are a number of regular markets in the borough that are privately operated. The council recognises the value of markets in that they positively enhance the enjoyment of the town as a tourist and leisure destination and add value for local residents.

The council is therefore supportive of high quality markets in the borough and would be inclined to be supportive of market applications of this type. The council has deemed the following locations appropriate for regular markets:

- Pedestrianised Promenade outside the front of Cavendish House.
- Entire length of the Long Gardens facing the outer Promenade.

8. Special Events

The council recognises that there may be times when consent may be sought otherwise than in accordance with the policy for special one-off events.

These may include, for example, one-off charitable or promotional events.

Applications of this type will be determined on a case-to-case basis taking into account the assessment criteria set out above.

9. Conditions

Consents are issued subject to the council's standard conditions. See **Annex 2** for the council's standard conditions.

In addition, the council can impose additional conditions where it is deemed appropriate.

10. Enforcement

The council has a responsibility to regulate street trading in the borough and is therefore committed to enforcing the provisions contained within the relevant legislation and to work in partnership with all enforcement agencies.

All enforcement action will be undertaken in accordance with the council's adopted enforcement policy.
