

Community impact assessments – for services, policies and projects

What is a community impact assessment?

A community impact assessment is an important part of our commitment to delivering better services for our communities. The form will help us find out what impact or consequences our functions, policies, procedures and projects have on our communities, as well as employees and potential employees.

By undertaking an impact assessment, we are able to:

- Take into account the needs, experiences and circumstances of those groups of people who use (or don't / can't use) our services.
- Identify any inequalities people may experience.
- Think about the other ways in which we can deliver our services which will not lead to inequalities.
- Develop better policy-making, procedures and services.

Background

Name of service / policy / project and date	Older Peoples Housing Related Support and Sheltered Housing Services
Lead officer	Martin Stacy, Lead Commissioner – Housing Services
Other people involved in completing this form	Caroline Walker, Community Services Manager Martin Stacy, Lead Commissioner – Housing Services

Step 1 - About the service / policy / project

<p>What is the aim of the service / policy / project and what outcomes is it contributing to</p>	<p>This service replaces the traditional sheltered housing service and will bring about a more flexible delivery of housing related support services to older people in Cheltenham, both within our sheltered housing and in the community at large. There will be a strengths-based focus, with an emphasis on providing short term interventions which will enable older people to regain their independence.</p> <p>This service will support our corporate outcome: people live in stronger, safer and healthy communities.</p>
<p>Who are the primary customers of the service / policy / project and how do they / will they benefit</p>	<p>Older People (across tenure) in Cheltenham will benefit from a needs based flexible service offer delivered through a network of community hubs. A broad programme of services and activities are being developed which will focus on health and well being , reducing social isolation and opportunities to learn new skills and interests</p>
<p>How and where is the service / policy / project implemented</p>	<p>Within the community (in people's homes) and through two community hubs which will deliver services and activities for residents within these schemes and for those living in the neighbouring communities. One of these hubs is in Hatherley (Wallace House), and it is proposed that the other will be in Oakley (Lynworth Court), subject to consultation.</p>
<p>What potential barriers might already exist to achieving these outcomes</p>	<p>The project will need to ensure that older people develop an understanding of the concept of community hubs and the potential benefits to be derived from accessing the services and activities which are delivered from them. It is anticipated that some older people will need to overcome issues of mental health, confidence, anxiety and loneliness in order to be able to access the hubs. Appropriate services are being developed to provide the necessary levels of support which may be required.</p>

Step 2 – What do you know already about your existing / potential customers

<p>What existing information and data do you have about your existing / potential customers e.g. Statistics, customer feedback, performance information</p>	<p>Profiling data is held for more than 95% of tenants including older people. In addition there is additional data recorded within a support plan for those older people who reside in sheltered housing. Further improvements in data capture will be necessary in order to include the profile and needs of older people in general needs housing, as well as those living in the wider community.</p>
<p>What does it tell you about who uses your service / policy and those that don't?</p>	<p>It is understood that there is a broad range of need both for older people in sheltered housing and in general needs housing. In developing a flexible service offer, research has been undertaken to increase understanding of the market for older people's services in Cheltenham.</p>
<p>What have you learnt about real barriers to your service from any consultation with customers and any stakeholder groups?</p>	<p>An independent consultation exercise was undertaken in Feb / March 2014 and it was clear that awareness needs to be increased of the opportunities available to older people in a community hub. As the service offer evolves and further needs assessments are undertaken, there will need to be ongoing consultation.</p>
<p>If not, who do you have plans to</p>	<p>See above</p>

Step 3 - Assessing community impact

How does your service / policy / project impact on different groups in the community?

Group	What are you already doing to benefit this group	What are you doing that might disadvantage this group	What could you do differently to benefit this group	No impact on this group
People from black and minority ethnic groups	Appropriately tailored housing-related support for older people	None	n/a – support is tailored to the needs of the individual so any assessment will take account of issues pertinent to black & minority ethnic groups	
Gender	As above	None	n/a – as above	
Gender Reassignment	As above	None	n/a – as above	
Older people / children and young people	As above	None	n/a - as above	No impact on young people
People with disabilities and mental health challenges	As above	None	n/a – as above	
Religion or belief	As above	None	n/a – as above	
Lesbian, Gay and Bi-sexual people	As above	None	n/a – as above	
Marriage and Civil Partnership	As above	None	n/a – as above	
Pregnancy & Maternity				No impact
Other groups or communities	As above	None	n/a – as above	

Step 4 - what are the differences

Are any groups affected in different ways to others as a result of the service / policy / project?	No – this will be a tailored package of housing related support that is designed around the needs of the individual.
Does your service / policy / project either directly or indirectly discriminate?	No.
If yes, what can be done to improve this?	N/A
Are there any other ways in which the service / project can help support priority communities in Cheltenham?	

Step 5 – taking things forward

What are the key actions to be carried out and how will they be resourced and monitored?	<p>There are 4 work streams which will be overseen by the Housing Support Transformation Project Group. This group was set up by CBH, and is made up of officers both at CBC and CBH, as well as including tenant representation, and representation from the County Council who commission the service.</p> <p>The work streams are as follows:</p> <ol style="list-style-type: none"> 1. The delivery of two sheltered housing based community ‘hubs’ from which services and activities can be delivered to support the residents and the wider community. 2. The remodelling of sheltered housing community facilities to ensure the hubs are fit for purpose. 3. The development of a flexible service offer for older people. This will include the development of replacement solution to our hard wired alarm system in our sheltered housing. 4. An ongoing consideration of alternative funding streams.
Who will play a role in the decision-making process?	Key CBC stakeholders, CBH Board, Cheltenham Senior Community Voice and members of CBH’s Housing Support Transformation Project Group.
What are your / the project’s learning and development needs?
