As a resident that overlooks St Margaret's Hall (the flats backing onto the site) I do not relish the proposed idea of a new Annexe for the facilities as I feel this would increase the risk of residents not being able to park when returning home as currently I already experience problems on occasions were people attending the hall park on the street instead of using the car park when there are ample spaces available in the hall grounds but are choosing to park outside the facilities. I feel that there is already inadequate parking for residents in Coniston Road and Grasmere Road without adding to the problem and I do not see where the extra spaces will come from that have been mentioned.

I also object to hearing the music in my flat during the summer months when classes are taking place and the doors are opened for air; no consideration is taken to the residents to turn the music down when this happens; this also applies to parties of an evening that go on past Midnight (which they do) where people talking outside whilst drinking and having a smoke keeping residents awake and you hear car doors slamming when everyone eventually leaves. There is never a car left in the car park over night after parties which I find strange as people are clearly drinking so therefore shouldn't be driving home.) I am aware that new cooling systems have been installed within the property but this is not stopping groups from holding their sessions outside; I have on two recent occasions observed the yoga group holding their sessions out in the car park area so I am therefore strongly objecting to this proposal as a resident.
