

Overview and Scrutiny Committee

14 January 2019

Member Questions

1.	Question from Councillor David Willingham to Chair of Overview and Scrutiny
	<p>I ask this in my role as Chairman of the Licensing Committee and based only upon the agenda front sheet. When considering item 9 (High Street and Boots Corner Public Realm Concept Design - Project Initiation Document), could the Chairman please draw Members' attention to the forthcoming review of the Council's Street Trading Policy which is due imminently; as these issues may need to be considered together to ensure that both pieces of work seek to deliver an aligned set outcomes?</p>
	Response from Chair of Overview and Scrutiny
	<p>I would like to thank Cllr Willingham for bring this matter to my attention. Item 9 is a review of Project Initiation Document of the design concept for the High Street and Boots corner. However it is important to ensure that this project relates to other initiatives. With this in mine I will ensure that the O&S committee are aware of Cllr Willingham's concerns.</p>
