

## **Gloucestershire Health & Care Overview & Scrutiny Committee**

Written report from Cllr Martin Horwood to CBC overview & scrutiny committee 14 January 2019

Gloucestershire Health & Care Overview & Scrutiny Committee (HCOSC) has not met since the last Overview & Scrutiny Committee Meeting.

The additional HCOSC meeting specifically to discuss the proposed changes to **General Surgery** will be held on **20 February 2019 at 10am**. This is much later than anticipated and took some time to arrange. It is regrettable that despite this the chief executive of Gloucestershire Hospitals NHS Foundation Trust, Deborah Lee, is unable to attend.

There is another additional meeting to consider the committee's **future work plan** and agendas on **28 January 2019**.

The next **regular HCOSC meeting** is tomorrow, **15 January 2019**, and the main agenda items are:

- Consider a petition to **Save North Cotswold X-Ray Services** (this arises from the urgent reduction in community radiology services highlighted in my last report)
- **Adult mental health - what happens in a crisis situation?** Briefing & discussion.
- **Annual Report of the Director of Public Health 2017/18**. Presentation & discussion.
- Update on the **Integrated Care System** plan for Gloucestershire (this is the ongoing plan to join up health and care services amongst different providers in the county, including the establishment of Locality Boards for each local area. I will continue to ask when the proposed Integrated Locality Board for Cheltenham and Winchcombe will begin liaising with or reporting to the Borough)

Cllr Martin Horwood
