1. DESCRIPTION OF SITE AND PROPOSAL

- 1.1 The application site is located at the end of Wendover Gardens, a small cul-de-sac on the northwest side of Christchurch Road. The site is located just within the Eldorado character area of the Central conservation area, and adjacent to the Lansdown character area.
- 1.2 The existing dwelling on site is a detached two storey property, largely faced in brick beneath a pitched concrete tiled roof. There is a large flat roofed addition to the northeast of the property.
- 1.3 Previously, in September 2016, planning permission (ref. 16/01436/FUL) was granted for the complete remodelling and extension of the existing dwelling; this permission remains extant.
- 1.4 This application is now proposing the erection of a replacement dwelling following demolition of the existing building.
- 1.5 Revised plans have been submitted during the course of the application to reduce the extent of the first floor balcony to reflect that of the previously approved scheme, and to introduce an additional roof light to the kitchen area, and an external door to the utility. Additionally, drawings have been provided to demonstrate the similarities between the scale and massing of the approved scheme and that now proposed.
- 1.6 Notwithstanding the revised/additional plans, the application is at planning committee at the request of Councillor Mason for the following reasons:
 - the size of the new building;
 - the short distance between the building and the boundary of two neighbouring properties; and
 - the size and design of the balcony, and the loss of privacy to four neighbouring properties.
- 1.7 The Civic Society's Planning Forum also considers the proposed dwelling to be too large for the plot.
- 1.8 Members will visit the site on planning view.

2. CONSTRAINTS AND RELEVANT PLANNING HISTORY

Constraints:

Airport Safeguarding over 45m Conservation Area Principal Urban Area Residents Association Smoke Control Order

Relevant Planning History:

4. CONSULTATION RESPONSES

Cheltenham Civic Society

24th July 2019

The Civic Society's Planning Forum believes that the proposed dwelling is too large for the plot. The application lacks any contextual drawings and the elevation is poorly presented.

Building Control

5th July 2019

The application will require Building Regulations approval. Please contact Cheltenham and Tewkesbury borough council on 01242 264321 for further information.

Gloucestershire Centre for Environmental Records

30th July 2019

Biodiversity report available to view.

Architects Panel

13th August 2019

The panel had no objection to the principle of a replacement dwelling on this site.

The panel thought the amended scheme to be acceptable.

Support.

5. PUBLICITY AND REPRESENTATIONS

- 5.1 Letters of notification were sent out to 22 neighbouring properties. In addition, a site notice was posted and an advert published in the Gloucestershire Echo. Seven representations have been received in response to the publicity raising the following concerns:
 - Overdevelopment / visual impact
 - Loss of privacy / increase in noise
 - Out-of-keeping
 - Height

6. OFFICER COMMENTS

- 6.1 The principle of development has largely been established by the previous grant of planning permission for alterations and extensions to the existing dwelling; this permission remains extant and is a material consideration in the determination of this application. Details of the previously approved scheme will be available at the committee meeting.
- 6.2 Neighbouring amenity in terms of privacy, outlook and daylight was carefully considered in the determination of the previous application and, as the images below demonstrate, the scale, massing and footprint of the dwelling now proposed is very similar to the extant scheme and would not result in any additional harm (the red line denotes the outline of the extant scheme). A similar condition to that previously imposed in relation to the new upper floor windows in the rear elevation is recommended together with an additional condition restricting access to the flat roof area, other than the balcony shown on the revised plan, for maintenance purposes only.

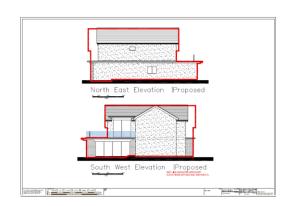

Ground floor

Elevations 1

First floor

Elevations 2

- 6.3 As such, whilst the concerns raised by local residents have been duly noted, officers consider the scheme to be acceptable on amenity grounds; it should be noted that no objection was raised by local residents in response to the extant scheme.
- 6.4 Additionally, a contemporary design approach on this site has been previously supported. Whilst it was noted in the previous officer report that the extensions would not read as subservient additions, and that the external alterations would undoubtedly alter the character and appearance of the existing dwelling, officers do not consider that harm would be caused to either the existing dwelling or locality. The scheme now proposed is

- considered to be an enhancement to the conservation area, and the Architects Panel also support the proposal.
- 6.5 Members will note on planning view, that the property at the entrance to Wendover Gardens, 51 Christchurch Road, has been altered and extended, with the introduction of render to the elevations, grey powder coated aluminium windows, and grey roof tiles resulting in a wholly contemporary appearance which is not harmful to the character of the area.
- 6.6 The recommendation therefore is to grant planning permission subject to the conditions below:

7. SUGGESTED CONDITIONS

The planning permission hereby granted shall be begun not later than the expiration of three years from the date of this decision.

Reason: To accord with the provisions of Section 91 of the Town and Country Planning Act 1990, as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

The planning permission hereby granted shall be carried out in accordance with the approved plans listed in Schedule 1 of this decision notice.

Reason: For the avoidance of doubt and in the interests of proper planning.

Notwithstanding the provisions of The Town and Country Planning (General Permitted Development) (England) Order 2015 (or any order revoking and/or re-enacting that order), the first floor windows in the rear (northwest) elevation serving the master bedroom shall at all times be glazed with obscure glass to at least Pilkington Level 3 (or equivalent) and shall incorporate a restricted opening mechanism, details of which shall have been submitted to and approved in writing by the Local Planning Authority prior to their installation.

Reason: To safeguard the amenities of adjacent properties, having regard to saved policy CP4 of the Cheltenham Borough Local Plan (2006) and adopted policy SD14 of the Joint Core Strategy (2017).

The flat roof area of the development hereby permitted, other than the balcony shown on Drawing No. 114-06 REV D, shall not be used as a roof garden or other external amenity area at any time. Access to the flat roof shall be for maintenance purposes only.

Reason: To safeguard the amenities of adjacent properties, having regard to saved policy CP4 of the Cheltenham Borough Local Plan (2006) and adopted policy SD14 of the Joint Core Strategy (2017).

INFORMATIVE

In accordance with the requirements of The Town and Country Planning (Development Management Procedure) (England) Order 2015 and the provisions of the NPPF, the Local Planning Authority adopts a positive and proactive approach to dealing with planning applications and where possible, will seek solutions to any problems that arise

when dealing with a planning application with the aim of fostering the delivery of sustainable development.

At the heart of this positive and proactive approach is the authority's pre-application advice service for all types of development. Further to this however, the authority publishes guidance on the Council's website on how to submit planning applications and provides full and up-to-date information in relation to planning applications to enable the applicant, and other interested parties, to track progress.

In this instance, having had regard to all material considerations, the application constitutes sustainable development and has therefore been approved in a timely manner.
