Member Questions (1)

1.	Question from Councillor David Willingham to Cabinet Member Development and Safety, Councillor Andrew McKinlay
	I have been contacted by a number of residents in the new Taylor's Yard development who are concerned about how the parking scheme on Malvern Walk will be implemented. Concerns include the provision of screening to ensure that car headlights don't shine into windows in the new development, and the security implications when the car park is not operational. There are also concerns about safety of cyclists using Malvern Walk to access the Honeybourne Line. Could I please seek an assurance that prior to the implementation of parking on Malvern Walk, local consultation will be held with residents and Honeybourne Line users to ensure that their concerns are fully captured and appropriate mitigation measures are put in place?
	Response from Cabinet Member
	This issue is covered in the Cabinet report and I am pleased to be able to commit to a local consultation exercise, once the draft design for the revised car parking provision has been prepared. This draft design will take into account the issues already raised by Cllr Willingham in conjunction with the new Parking Order consultation.
