6. OFFICER COMMENTS

- 6.1 It is important to consider the policy context in which the proposal needs to be determined. The cornerstone of heritage legislation is the Planning (Listed buildings and Conservation Area) Act 1990, Section 16(2), which requires local planning authorities to have special regard to the desirability of preserving the special architectural or historic interest of listed buildings and their setting. A core principle of the National Planning Policy Framework 2019 (NPPF) is heritage assets be conserved in a manner appropriate to their significance. Chapter 16, paragraphs 199-208 set out how potential impacts on heritage assets shall be considered. This assessment takes account of the relevant considerations in these paragraphs, including paragraph 197 of the NPPF, which requires the significance of heritage assets to be sustained and enhanced, with paragraph 199 requiring great weight be given to the asset's conservation.
- 6.2 The proposed works are to remove defective insulation on the balcony and its replacement with new insulation and roof covering, timber repairs to the underside of the balcony, repointing of stone steps with lime mortar and addition of rodding point to the east downpipe.
- 6.3 The works relate to maintenance and repair of the building. They are considered necessary for the wellbeing of the heritage asset and sensitively undertaken to respect the existing historic fabric.
- 6.4 The general approaches to the repair of the timbers to the underside of the balcony are in principle acceptable as they are conservation-led but a specific understanding of the works to each timber is considered necessary. This can be dealt with by condition.
- 6.5 The proposed works are considered to sustain the designated heritage assets and comply with Section 16 of the Planning (Listed Building and Conservation Area) Act 1990, Chapter 16 of the National Planning Policy Framework and Policy SD8 of the Joint Core Strategy 2017.

7. CONCLUSION AND RECOMMENDATION

- 7.1 It is recommended the application be granted with conditions.

8. CONDITIONS / INFORMATIVES

- 1 The listed building consent hereby granted shall be begun not later than the expiration of three years from the date of this decision.

Reason: To accord with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990, as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

- 2 The listed building consent hereby granted shall be carried out in accordance with the approved plans listed in Schedule 1 of this decision notice.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3 Detailed information and plans regarding the repair and maintenance works, to include: specific works to the timber and associated fabric to the underside of the balcony and appearance and location of rodding point to the downpipe, shall be submitted to and approved in writing by the Local Planning Authority. The works shall not be carried out unless in accordance with the details so approved.

Reason: In the interests of the special architectural and historic qualities of the Listed Building, having regard to Policy SD8 of the Joint Core Strategy 2017 and Section 16(2) of the Planning (Listed Buildings and Conservation Areas) Act 1990, Chapter 16 of the National Planning Policy Framework and Historic Environment Good Practice Advice (note 2).

- 4 Notwithstanding the submitted details, no external roofing materials shall be applied to the balcony unless in accordance with further details to include a plan and cross section of the works and a written specification of the materials. The details of which shall have been submitted to and approved in writing by the Local Planning Authority.

Reason: In the interests of the special architectural and historic qualities of the Listed Building, having regard to Policy SD8 of the Joint Core Strategy 2017 and Section 16(2) of the Planning (Listed Buildings and Conservation Areas) Act 1990, Chapter 16 of the National Planning Policy Framework and Historic Environment Good Practice Advice (note 2).

INFORMATIVES

- 1 In accordance with the requirements of The Town and Country Planning (Development Management Procedure) (England) Order 2015 and the provisions of the NPPF, the Local Planning Authority adopts a positive and proactive approach to dealing with planning applications and where possible, will seek solutions to any problems that arise when dealing with a planning application with the aim of fostering the delivery of sustainable development.

At the heart of this positive and proactive approach is the authority's pre-application advice service for all types of development. Further to this however, the authority publishes guidance on the Council's website on how to submit planning applications and provides full and up-to-date information in relation to planning applications to enable the applicant, and other interested parties, to track progress.

In this instance, having had regard to all material considerations, the application constitutes sustainable development and has therefore been approved in a timely manner.
