E ellie.m.nicholls@uk.gt.com

This paper provides the Audit, Compliance and Governance Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit Compliance and Governance Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications

<https://www.grantthornton.co.uk/en/services/public-sector-services/>

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at March 2022

Financial Statements Audit

We undertook our initial planning for the 2021/22 audit in February 2022, and interim audit in February and March. We expect to begin our work on your draft financial statements in late June.

Our interim fieldwork includes:

- Updated review of the Council's control environment
- Updated understanding of financial systems
- Review of Internal Audit reports on core financial systems
- Understanding how the Council makes material estimates for the financial statements
- Early work on emerging accounting issues

The results of our work to date are included in this report.

A detailed audit plan, setting out our proposed approach to the audit of the Council's 2021/22 financial statements is included within the Committee papers.

We will report our work in the Audit Findings Report and aim to give our opinion on the Statement of Accounts by November 2022.

The Accounts and Audit (Amendment) Regulations 2021 push back the date by which principal authorities need to publish their draft financial statements to the first working day of August. The Department for Levelling Up, Communities and Housing (DLUHC) states that they intend, subject to consultation, to introduce secondary legislation to extend the deadline for publishing audited local authority accounts to 30 November 2022 for the 2021/22 accounts.

Value for Money

The new Code of Audit Practice (the "Code") came into force on 1 April 2020 for audit years 2020/21 and onwards. The most significant change under the new Code was the introduction of an Auditor's Annual Report, containing a commentary on arrangements to secure value for money and any associated recommendations, if required.

The new approach is more complex, more involved and is planned to make more impact.

Under the 2020 Code of Audit Practice, for relevant authorities other than local NHS bodies auditors are required to issue our Auditor's Annual Report no later than 30 September or, where this is not possible, issue an audit letter setting out the reasons for delay.

As a result of the ongoing pandemic, and the impact it has had on both preparers and auditors of accounts to complete their work as quickly as would normally be expected, the National Audit Office has updated its guidance to auditors to allow us to postpone completion of our work on arrangements to secure value for money and focus our resources firstly on the delivery of our opinions on the financial statements. This is intended to help ensure as many as possible could be issued in line with national timetables and legislation. The extended deadline for the issue of the Auditor's Annual Report is now no more than three months after the date of the opinion on the financial statements. We anticipate issuing our Auditor's Annual Report in January 2023.

Progress at March 2022 (cont.)

Other areas

Certification of claims and returns

We certify the Council's annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions (DWP). The certification work for the 2020/21 claim began in November. The Council have asked for and DWP have granted the Council an extension to the deadline of 11 March 2022 for this work.

We also certify the Council's annual Pooling of Housing Capital Receipts return in accordance with procedures agreed with the Department for Levelling Up, Communities and Housing ("DLUCH"). The deadline for completion and reporting of the certification work for the 2020/21 return was 4 February 2022. We submitted our return to DLUCH on 9 February.

Meetings

We met with Finance Officers in February as part of our quarterly liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. A member of your finance team attended our Accounts Workshop in February 2022, where we highlighted financial reporting requirements for local authority accounts and gave insight into elements of the audit approach.

Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

Audit Fees

During 2017, PSAA awarded contracts for audit for a five year period beginning on 1 April 2018. 2021/22 is the fourth year of that contract. Since that time, there have been a number of developments within the accounting and audit profession. Across all sectors and firms, the Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing.

Our work in the Local Government sector in the period 2018/19 to 2021/22 has highlighted areas where financial reporting, in particular, property, plant and equipment and pensions, needs to improve. There is also an increase in the complexity of Local Government financial transactions and financial reporting. This combined with the FRC requirement that all Local Government audits are at or above the "few improvements needed" (2A) rating means that additional audit work is required.

We have reviewed the impact of these changes on both the cost and timing of audits. We have discussed this with your s151 Officer including any proposed variations to the Scale Fee set by PSAA Limited, and have communicated fully with the Audit Committee.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting.

Audit Deliverables

2021/22 Deliverables	Planned Date	Status
Audit Plan We are required to issue a detailed audit plan to the Audit Compliance and Governance Committee setting out our proposed approach in order to give an opinion on the Council's 2021/22 financial statements and the Auditor's Annual Report on the Council's Value for Money arrangements.	April 2022	Complete
Interim Audit Findings We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.	April 2022	Complete
Audit Findings Report The Audit Findings Report will be reported to the November Audit Compliance and Governance Committee.	November 2022	Not yet due
Auditors Report This includes the opinion on your financial statements.	November 2022	Not yet due
Auditor's Annual Report This Report communicates the key issues arising from our Value for Money work.	December 2022	Not yet due

2020/21 Audit-related Deliverables	Planned Date	Status
Housing Benefit Subsidy – certification This is the report we submit to Department of Work and Pensions based upon the mandated agreed upon procedures we are required to perform.	28 February 2022	Ongoing
Pooling of housing capital receipts - certification This is the report we submit to the Department for Levelling Up, Communities and Housing (“DLUCH”). based upon the mandated agreed upon procedures we are required to perform.	4 February 2022	Completed
Certificate We have not yet closed the 2020/21 audit and issued the certificate. In order to finalise the audit, the procedures in respect of the Whole of Government accounts need to be completed. Central guidance to local authorities has not yet been issued. We expect the Council will remain below the threshold and no additional procedures will be required.	To be confirmed	

Results of Interim Audit Work

The findings of our interim audit work, and the impact of our findings on the accounts audit approach, are summarised in the table below:

	Work performed	Conclusions and recommendations
Internal audit	We have reviewed internal audit's work on the Council's key financial systems to date. We have not identified any significant weaknesses impacting on our responsibilities.	Our review of internal audit work has not identified any weaknesses which impact on our audit approach.
Entity level controls	<p>We have obtained an understanding of the overall control environment relevant to the preparation of the financial statements including:</p> <ul style="list-style-type: none"> • Communication and enforcement of integrity and ethical values • Commitment to competence • Participation by those charged with governance • Management's philosophy and operating style • Organisational structure • Assignment of authority and responsibility • Human resource policies and practices 	Our work has identified no material weaknesses which are likely to adversely impact on the Council's financial statements.
Review of information technology controls	<p>We performed a high-level review of the general IT control environment, as part of the overall review of the internal controls system.</p> <p>IT controls were observed to have been implemented in accordance with our documented understanding.</p>	Our work has identified no material weaknesses which are likely to adversely impact on the Council's financial statements.

	Work performed	Conclusions and recommendations
Walkthrough testing	<p>We are undertaking walkthrough tests of the Council's controls operating in areas where we consider that there is a significant risk of material misstatement to the financial statements. These areas include management override of controls, valuation of property, plant and equipment (including Council Dwellings), valuation of investment properties and valuation of the pension fund net liability.</p> <p>We will also review the internal audit reports on the controls operating at the Council's shared service providers.</p> <p>Our work completed to date has not identified any issues which we wish to bring to your attention. Internal controls have been implemented by the Council in accordance with our documented understanding.</p>	<p>Our work completed to date has not identified any weaknesses which impact on our audit approach.</p> <p>The work in this area is still ongoing.</p>
Journal entry controls	<p>We have reviewed the Council's journal entry policies and procedures as part of determining our journal entry testing strategy and have not identified any material weaknesses which are likely to adversely impact on the Council's control environment or financial statements.</p>	<p>Our work completed has not identified any weaknesses which impact on our audit approach.</p>
Shared service arrangements	<p>Audit team have documented the nature of services and relevant contractual terms with Public Group (Support) Limited. No issues have been noted in respect of this work.</p>	<p>Our work completed has not identified any weaknesses which impact on our audit approach.</p>
Early substantive testing	<p>No early substantive testing to be performed.</p>	

Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Levelling up White Paper – Department for Levelling Up, Communities and Housing (“DLUCH”)

On 2 February the Department for Levelling Up, Communities and Housing (“DLUCH”) published its Levelling Up White Paper.

The paper states “Levelling up requires a focused, long-term plan of action and a clear framework to identify and act upon the drivers of spatial disparity. Evidence from a range of disciplines tells us these drivers can be encapsulated in six “capitals”:

- Physical capital – infrastructure, machines and housing.
- Human capital – the skills, health and experience of the workforce.
- Intangible capital – innovation, ideas and patents.
- Financial capital – resources supporting the financing of companies.
- Social capital – the strength of communities, relationships and trust.
- Institutional capital – local leadership, capacity and capability.”

The paper also states “This new policy regime is based on five mutually reinforcing pillars.” These are set out and explained as:

- 1) The UK Government is setting clear and ambitious medium-term missions to provide consistency and clarity over levelling up policy objectives.
- 2) Central government decision-making will be fundamentally reoriented to align policies with the levelling up agenda and hardwire spatial considerations across Whitehall.

- 3) The UK Government will empower decision-makers in local areas by providing leaders and businesses with the tools they need.
- 4) The UK Government will transform its approach to data and evaluation to improve local decision-making.
- 5) The UK Government will create a new regime to oversee its levelling up missions, establishing a statutory duty to publish an annual report analysing progress and a new external Levelling Up Advisory Council.

(www.gov.uk)

Grant Thornton – reaction to Levelling up White Paper

On 2 February the Department for Levelling Up, Communities and Housing (“DLUCH”) published its Levelling Up White Paper.

Commenting on the release of the government’s Levelling up White Paper plans, Phil Woolley, Head of Public Sector Consulting, Grant Thornton UK LLP, said:

“The publication of today’s White Paper plans is a welcome first step and it is reassuring to see the government recognise the need for systemic changes in order to deliver its central aim of Levelling up. The ‘12 missions’ can be seen as an attempt to consolidate existing elements of government activity behind a singular banner and now provides a clearer picture of the levelling up opportunity.

“Following a decade of successful regional devolution and mayors, the White Paper marks the next stage of the country’s devolution journey. With government now offering a clear framework of devolved powers and accountability, local leaders will need to embrace the opportunity and collaborate across the public and private sector to ensure they negotiate and then deliver the best deal for their communities. Grant Thornton’s Levelling Up Index shows that the economies of the 10 worst performing local authorities in England are on average over five times smaller than their best performing counterparts - highlighting the scale of the challenge ahead.

“To level up, these areas would need to grow their economies by £12billion, increase employment rates by 6 percentage points, create 1,700 new businesses a year and increase average weekly pay by £200. It is too early to determine whether the measures announced today will be sufficient, but it is a start. Success will ultimately depend on the ability and willingness of local and national government to translate these new frameworks into meaningful change in people’s lives.

“The Spending Review offers the next opportunity for government to show its commitment by realigning departmental objectives behind these new goals.”

Government response to MHCLG Select Committee report on Local Authority financial sustainability & the section 114 regime – MHCLG

Government has published a response to the Housing, Communities & Local Government (HCLG) Committee report on local authority financial sustainability and the section 114 regime, published in July.

The HCLG report states “In recent years, the financial sustainability of local government has faced successive challenges, including increased demand for services, especially social care, changes to the level of funding equalisation between councils and, most recently, the COVID-19 pandemic. In some instances, councils have been in such acute financial trouble that they have approached the Ministry of Housing, Communities and Local Government for financial assistance; three of these—Northamptonshire in 2018, Croydon in late 2020 and Slough in July 2021—issued section 114 notices, essentially declaring they had run out of money. Our inquiry has sought to identify the most serious threats facing local councils’ finances. In light of the various factors we consider in the report, including the somewhat delayed Fairer Funding Review, renewed discussion about property taxes and the need to reform funding for social care, the time is right to consider a more radical review of local government finances—and our report makes various recommendations about how this should be done. We also consider what happened at Croydon—which prompted us to look at the section 114 regime—in the annex to our report.”

The report includes sections on:

- Social Care
- Funding
- COVID-19
- Local authority commercial investment
- Audit and control

The report made 13 recommendations, and the Government response to these was published in October. The response notes “Moving forward, we will work to provide the sector with a sustainable financial footing, enabling it to deliver vital frontline service and support other government priorities. We will also take stock, including of the impact of the pandemic on local authority resources and service pressures, to determine any future reforms.”

The initial report can be found here:

<https://committees.parliament.uk/publications/6777/documents/72117/default/>

Government response can be found here:

Public Accounts Committee (PAC) – Local auditor reporting on local government in England & government response

The PAC inquiry examined the timeliness of auditor reporting on English local public bodies' financial statements covering 2019-20. The National Audit Office (NAO) report, on which this inquiry is based, found that “delays in the delivery of audit opinions beyond the deadlines for publishing local authority accounts, alongside concerns about audit quality and doubts over audit firms' willingness to continue to audit local public bodies, highlight that the situation needs urgent attention.”

The PAC report found “Without urgent action from government, the audit system for local authorities in England may soon reach breaking point. With approximately £100 billion of local government spending requiring audit each year, the Ministry of Housing, Communities & Local Government (the Department) has become increasingly complacent in its oversight of a local audit market now entirely reliant upon only eight firms, two of which are responsible for up to 70% of local authority audits. This has not been helped by the growing complexity of local authority accounts, with audit firms now asked to carry out more work in each audit, comply with new regulatory demands and adapt to the new multifaceted landscape in which local authorities operate, while also struggling to hire and retain experienced auditors.”

Key conclusions were:

- The marked decline in the timeliness of external audit undermines accountability and hampers effective decision-making.
- There is a pressing risk of market collapse due to an over reliance on a small number of audit firms and significant barriers to entry.
- The commercial attractiveness to audit firms of auditing local authorities has declined.

- The rapidly diminishing pool of suitably qualified and experienced staff increases the risks to the timely completion of quality audits.
- We are not convinced that the recently announced new local audit arrangements will meet the pressing need for effective system leadership now.
- Unless local authority accounts are useful, relevant and understandable they will not aid accountability.

The report made recommendations in each of these areas. The government response was published on 28 October.

The PAC report and response can be found here:

Eleventh Report of Session 2021–22

Emergency consultation on 2021/22 reporting requirements – CIPFA

On 4 February CIPFA released an emergency four week consultation on time limited changes to the Code to help alleviate delays to the publication of audited financial statements. This explores two possible changes that might be made as an update to the 2021/22 code and to the agreed position in the 2022/23 code.

The decision to launch the consultation came after the Department for Levelling up, Housing and Communities (DLUHC) asked CIPFA to consider amendments to the Code of Practice on Local Authority Accounting, after just 9% of local audits for 2020-21 were published on time.

After considering a wide range of options CIPFA LASAAC decided to explore two approaches:

- 1) An adaptation to the code to allow local authorities to pause professional valuations for operational property, plant and equipment for a period of up to two years (though the initial proposal is for the 2021/22 financial year); this approach also explores the use of an index to be used to increase or reduce that valuation
- 2) Deferring the implementation of IFRS 16 Leases for a further year and reversing the planned changes to the 2022/23 code to implement that standard.

CIPFA Chief Executive Rob Whiteman said: “DLUHC is understandably concerned about this growing crisis – and CIPFA shares this concern. We are committed to supporting CIPFA LASAAC in its exploration of the options that may improve timeliness issues, without significantly impacting accountability. But this is a difficult issue, and we need feedback from stakeholders on whether and how this might work.”

CIPFA said that the changes do not represent the best form of financial reporting for local authorities, but are a “temporary expedient to help improve an unacceptable situation”.

The consultation closed on Thursday 3 March. Any updates to the Code are subject to oversight by the Financial Reporting Advisory Board before implementation.

The consultation can be found here:

<https://www.cipfa.org/policy-and-guidance/consultations/emergency-proposals-for-update-of-202122-and-202223-codes>

Summary of the Grant Thornton response

Property, Plant & Equipment Valuations

In principle we are very supportive of changes to the measurement basis for operational property, plant and equipment. However our view is that it is too late to effect change for the 2021/22 reporting cycle. Our response highlighted a number of difficulties with this approach, including the risk that some assets then fall outside of the requirement to be revalued every five years as a minimum, and the challenge of consistent application of indexation. The proposed amendments to the Code do not appear to override the requirement that the carrying amount does not differ materially from that which would be determined using the current value at the end of the reporting period, which stems from IAS 16:31. If the financial reporting requirements are not sufficiently tightly defined and auditors therefore cannot obtain sufficient and appropriate audit evidence to support this requirement, there is a risk that audit opinions could be modified as a result.

Deferral of IFRS 16 - Leases

The removal of the requirement for disclosure (based upon IAS 8) in 2021/22 is not likely to have a significant impact in terms of freeing up auditor time and audit work covering the disclosures in 2022/23 would then be required in the 2022/23 audit. Savings to preparer time and effort would depend on what progress has already been made in preparing for the imminent implementation of IFRS 16.

Prudential Code and Treasury Management Code – CIPFA

On 20 December CIPFA published the new Prudential Code for Capital Finance in Local Authorities (Prudential Code) and Treasury Management in the Public Services Code of Practice and Cross-Sectoral Guidance Notes (the Treasury Management Code).

CIPFA commented “These two statutory and professional codes are important regulatory elements of the capital finance framework in which local authorities operate. Local authorities are required by regulation to ‘have regard to’ their provisions. These two codes have been published a principles-based consultation from February to April, which was followed by a second consultation on the detailed changes to the code from September to mid-November.

The updated Prudential Code includes some substantive changes. Most notably, the provisions in Code which present the approach to borrowing in advance of need in order to profit from additional sums borrowed have been strengthened. Additionally, the relevant parts of Code have augmented to be clear that borrowing for debt-for-yield investment is not permissible under the Prudential Code. This recognises that commercial activity is part of regeneration but underlines that such transactions do not include debt-for-yield as the primary purpose of the investment or represent an unnecessary risk to public funds.”

The updated Prudential Code removes the "advance of need" terminology and emphasises the legislative basis for borrowing, namely that a local authority can borrow and invest for any legislative function and/or for the prudent management of their financial affairs.

The examples listed in the Code of legitimate prudential borrowing are:

- Financing capital expenditure primarily related to the delivery of a local authority’s functions;
- Temporary management of cash flow within the context of a balanced budget;
- Securing affordability by removing exposure to future interest rate rises; or
- Refinancing current borrowing, including replacing internal borrowing, to manage risk or reflect changing cash flow circumstances.

Good practice in annual reporting – NAO

The National Audit Office (NAO) has published this guide which sets out good practice principles for annual reporting with examples from public sector organisations

The NAO comment that the guide sets out “good-practice principles that we believe underpin good annual reporting. These principles are: Supporting Accountability; Transparency; Accessibility; and the need for the report to be Understandable.”

The NAO further comment “The best annual reports we have seen use these principles to tell the “story” of the organisation. It is important that stakeholders, including the public and Parliament, are able to hold an organisation to account. To do this effectively, stakeholders need to properly understand the organisation’s strategy, key risks that might get in the way of delivering this strategy and the effectiveness of their management, and the amount of taxpayers’ money that has been spent to deliver the outcomes the organisation seeks to achieve.”

The guide draws on examples of good practice from within each of the six sections of an Annual Report:

- Strategy
- Risk
- Operations
- Governance
- Measures of success
- Financial performance
- External factors

Although the guide does not include any local authority examples, those included, and the underlying principles, are equally relevant to all public facing organisations.

The guide can be found here:

[Good practice in annual reporting - National Audit Office \(NAO\) Report](#)
