

Impact Assessment Tool - V.1

The purpose of this tool is to consider the wide range of possible impacts that a proposed project/policy could have on environmental and social criteria. Completing this assessment as early as possible will help shape a project or policy into a strong proposal by highlighting positive areas and areas for improvement. Use of this tool will also help ensure projects and policies are meeting Council commitments to climate as well as other council priorities.

This section is about addressing the ecological crisis, which has highlighted the negative impact our actions and behaviours have on plant and animal life. The UK has lost a lot of biodiversity (variety of plant and animal life) which is critical for our collective survival. Publica Councils have also declared ecological emergencies, so these factors reflect that.

This section is about addressing the climate crisis and some of the main causes of climate change. All Publica Councils have declared a climate emergency and committed to being carbon neutral by 2030 or 2040. Considering the impact of these factors will help to ensure projects and policies that are approved are in line with these climate commitments.

Summary

The purpose of the Impact Assessment Tool is to consider the wide range of possible impacts that a proposed project/policy could have on environmental and social criteria.

Completing this assessment as early as possible will help shape a project or policy into a strong proposal by highlighting positive areas and areas for improvement.

Use of this tool will also help ensure projects and policies are meeting Council commitments to climate as well as other council priorities.

Please complete the following before moving to the **Environment** tab

What is being assessed:

What type of proposal is being assessed?

Area

Service

Name of officer

Date

Aims, objectives, anticipated outcomes of project

The purpose of the Impact Assessment Tool is to improve and document the consideration of the wide range of possible impacts that a proposed project/policy could have on environmental and social criteria

Who will implement/deliver the proposal?

Report authors, normally at Director or Service Manager level

1. Air Quality
This section discusses the potential impacts of the project on air quality, including emissions from construction and operation. It includes a table for estimating emissions and a checklist for mitigation measures.

Form with input fields for air quality data, including project name, location, and various parameters.

2. Noise
This section discusses the potential impacts of the project on noise levels, including construction and operation. It includes a table for estimating noise levels and a checklist for mitigation measures.

Form with input fields for noise data, including project name, location, and various parameters.

3. Water Quality
This section discusses the potential impacts of the project on water quality, including construction and operation. It includes a table for estimating water quality impacts and a checklist for mitigation measures.

Form with input fields for water quality data, including project name, location, and various parameters.

4. Land Use
This section discusses the potential impacts of the project on land use, including construction and operation. It includes a table for estimating land use impacts and a checklist for mitigation measures.

Form with input fields for land use data, including project name, location, and various parameters.

5. Biological Resources
This section discusses the potential impacts of the project on biological resources, including construction and operation. It includes a table for estimating biological resource impacts and a checklist for mitigation measures.

Form with input fields for biological resources data, including project name, location, and various parameters.

6. Soil and Sedimentation
This section discusses the potential impacts of the project on soil and sedimentation, including construction and operation. It includes a table for estimating soil and sedimentation impacts and a checklist for mitigation measures.

Form with input fields for soil and sedimentation data, including project name, location, and various parameters.

7. Cultural Resources
This section discusses the potential impacts of the project on cultural resources, including construction and operation. It includes a table for estimating cultural resource impacts and a checklist for mitigation measures.

Form with input fields for cultural resources data, including project name, location, and various parameters.

8. Energy Use
This section discusses the potential impacts of the project on energy use, including construction and operation. It includes a table for estimating energy use impacts and a checklist for mitigation measures.

Form with input fields for energy use data, including project name, location, and various parameters.

9. Socioeconomics
This section discusses the potential impacts of the project on socioeconomics, including construction and operation. It includes a table for estimating socioeconomics impacts and a checklist for mitigation measures.

Form with input fields for socioeconomics data, including project name, location, and various parameters.

10. Other
This section discusses other potential impacts of the project, including construction and operation. It includes a table for estimating other impacts and a checklist for mitigation measures.

Form with input fields for other data, including project name, location, and various parameters.

11. Summary
This section provides a summary of the potential impacts of the project and the recommended mitigation measures. It includes a table for summarizing impacts and a checklist for mitigation measures.

Form with input fields for summary data, including project name, location, and various parameters.

Main form area with multiple sections for data entry, including checkboxes and input fields for each impact category.

Table with 2 columns: Impact Category, Status. Rows include Air Quality, Noise, Water Quality, Land Use, Biological Resources, Soil and Sedimentation, Cultural Resources, Energy Use, Socioeconomics, and Other.

1. Field
This section covers the impact of the project on the field, including the impact on the field of work, the impact on the field of study, and the impact on the field of research.

1.1. Field of Work
How does the project impact the field of work? (e.g., productivity, efficiency, quality, safety, etc.)

1.2. Field of Study
How does the project impact the field of study? (e.g., knowledge, understanding, skills, etc.)

1.3. Field of Research
How does the project impact the field of research? (e.g., discovery, innovation, etc.)

2. Health & Wellbeing
This section covers the impact of the project on the health and wellbeing of the community, including the impact on physical health, mental health, and overall quality of life.

2.1. Physical Health
How does the project impact physical health? (e.g., disease prevention, health promotion, etc.)

2.2. Mental Health
How does the project impact mental health? (e.g., stress management, emotional support, etc.)

2.3. Quality of Life
How does the project impact overall quality of life? (e.g., access to services, community support, etc.)

3. Education
This section covers the impact of the project on education, including the impact on learning outcomes, student engagement, and educational equity.

3.1. Learning Outcomes
How does the project impact learning outcomes? (e.g., knowledge, skills, attitudes, etc.)

3.2. Student Engagement
How does the project impact student engagement? (e.g., participation, motivation, etc.)

3.3. Educational Equity
How does the project impact educational equity? (e.g., access to resources, support for disadvantaged students, etc.)

4. Education
This section covers the impact of the project on education, including the impact on learning outcomes, student engagement, and educational equity.

4.1. Learning Outcomes
How does the project impact learning outcomes? (e.g., knowledge, skills, attitudes, etc.)

4.2. Student Engagement
How does the project impact student engagement? (e.g., participation, motivation, etc.)

4.3. Educational Equity
How does the project impact educational equity? (e.g., access to resources, support for disadvantaged students, etc.)

5. Social Community
This section covers the impact of the project on the social community, including the impact on social cohesion, community support, and social justice.

5.1. Social Cohesion
How does the project impact social cohesion? (e.g., trust, shared values, etc.)

5.2. Community Support
How does the project impact community support? (e.g., mutual aid, shared resources, etc.)

5.3. Social Justice
How does the project impact social justice? (e.g., equity, fairness, etc.)

6. Cultural Community
This section covers the impact of the project on the cultural community, including the impact on cultural heritage, cultural identity, and cultural expression.

6.1. Cultural Heritage
How does the project impact cultural heritage? (e.g., preservation, promotion, etc.)

6.2. Cultural Identity
How does the project impact cultural identity? (e.g., pride, belonging, etc.)

6.3. Cultural Expression
How does the project impact cultural expression? (e.g., arts, music, etc.)

7. Accessibility
This section covers the impact of the project on accessibility, including the impact on physical accessibility, digital accessibility, and social accessibility.

7.1. Physical Accessibility
How does the project impact physical accessibility? (e.g., ramps, elevators, etc.)

7.2. Digital Accessibility
How does the project impact digital accessibility? (e.g., screen readers, captioning, etc.)

7.3. Social Accessibility
How does the project impact social accessibility? (e.g., inclusive language, etc.)

8. Employment & Skills
This section covers the impact of the project on employment and skills, including the impact on job creation, skill development, and career advancement.

8.1. Job Creation
How does the project impact job creation? (e.g., new roles, positions, etc.)

8.2. Skill Development
How does the project impact skill development? (e.g., training, education, etc.)

8.3. Career Advancement
How does the project impact career advancement? (e.g., promotions, opportunities, etc.)

9. Safety/Security
This section covers the impact of the project on safety and security, including the impact on physical safety, digital security, and social safety.

9.1. Physical Safety
How does the project impact physical safety? (e.g., risk reduction, safety measures, etc.)

9.2. Digital Security
How does the project impact digital security? (e.g., data protection, privacy, etc.)

9.3. Social Safety
How does the project impact social safety? (e.g., harassment prevention, etc.)

10. Equality
This section covers the impact of the project on equality, including the impact on gender equality, racial equality, and social equality.

10.1. Gender Equality
How does the project impact gender equality? (e.g., pay equity, leadership opportunities, etc.)

10.2. Racial Equality
How does the project impact racial equality? (e.g., anti-discrimination measures, etc.)

10.3. Social Equality
How does the project impact social equality? (e.g., access to resources, etc.)
