Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Having read the planning officers report I would like to point out that as mentioned in my first comment, it is not just the kitchen that receives light from the kitchen window, but also the dining room with dining table and chairs etc. There is no door on the kitchen specifically to allow light through into the dining room.

I am deeply concerned that this has not been given serious consideration and the report is inaccurate, stating that no dining room / sitting area is effected. I am also concerned with the comment that a small reduction in 1st floor depth will improve the light levels to the kitchen window, without any specialist advice being sought, I believe it would have very little if any effect. As recommended by the Parish Council a full light survey needs to be conducted and would be the only fair way to assess the impact this development would have on our property.
