

# **Overview and Scrutiny**

**29 September 2025**

## **Member question**

### **1. Question from Harry Booty (co-optee) to Vice Chair Jackie Chelin**

This may be a learning point for me, but could it be explained how the interaction with other committees (e.g. HOSC, economic strategy) works? are these updates included for awareness or do they operationally/ practically impact CBC business, and thereby the work or the output of the CBC OSC?

#### **Response:**

There are three Gloucestershire-wide committees/panels to which borough councillors are appointed to represent the community's views, contribute to policy development, scrutinize decisions, and ensure efficient and accountable governance. These are for areas for which the borough has no direct responsibility, but which impact on residents. Our representatives feedback on activities to O&S and also can raise concerns in these fora on behalf of O&S
