## Member Question

### **Question from Councillor Chris Day to Cabinet Member for Planning and Building Control, Councillor Paul Baker**

The Planning Protocol which was in place prior to the updated Protocol approved by the Council on 18 May says: “A schedule of all requests [for referral to the Planning Committee], together with the reasons as to whether they [sic] why they were accepted or declined will be maintained by the Head of Planning”

Could the Cabinet Member please supply a list of ward councillor requests for a Planning Committee decision that have been declined over the last three years. I would be grateful if the list would identify the planning application reference, and whether the request was declined because (a) it was received outside of the 21 day time limit, (b) did not contain valid planning reasons or (c) for other reasons.

I would also be grateful if the date range covered by the response could be identified.
