<b>Executive summary</b>	<p>The council is facing significant financial pressure and is likely to have to find savings of £2.6m in 2011/12 and £4.8m over the next 5 years. <b>Recommendations</b>	<p>1. The committee consider the consultation responses and identify areas, under the remit of the committee, where the Cabinet should look to maintain expenditure levels, reducing expenditure, stop the provision of services and make any suggestions for providing services differently.</p>

## 1. Background

- 1.1** Given the coalition government desire to reduce the level of national debt through controlling the level of public spending, the outlook for the council's financial position looks challenging.
- 1.2** Given the level of cuts, some additional budget consultation was undertaken during the summer of 2010. This consultation consisted of 21 roadshows across the town using information boards containing lists of council services including financial information. Residents were asked to identify and prioritise, using sticky dots which services should be 'protected', 'reduced' in cost or 'stopped' altogether. The public used 21,000 sticky dots in the process. Whilst it is recognised that this was not a scientific exercise, it has engaged the public in a debate about what the council does and does provide a useful guide to the Cabinet in determining where to look to make cuts in future year's budgets.
- 1.3** The results have been analysed and services ranked in order under each of the headings of protect, reduce and stop.
- 1.4** Members are asked to consider these and offer any views to Cabinet on how the Cabinet should approach its decision making in the budget process.

## 2. Consultation and feedback

- 2.1** The consultation result will be tabled for consideration.
