Indicat	ors measuring service performance					Q1	Q2	Q3	Q4	Annual		Officer
											This information cannot be provided accurately until the outturn budget for	
											2012-13 is finalised and central costs are reapportioned. It is suggested that	
		Underpinning									we should report this information when the base data is available by discrete	
1.	Income achieved as a proportion of expenditure	principles (1)	Annual	Annual report						TBA	service area.	MR
		Underpinning		Performance							The number of planning applications being received remains buoyant,	
2a.	Number of applications received	principles (1,8)	Quarterly	report	2,000	586				5	despite prevailing economic conditions.	HT
		Underpinning		Performance							The number of applications determined during the year held up well, despite	
2b.	Number of applications determined	principles (1,8)	Quarterly	report	1,550	398				3	8 significant staffing changes within the planning team.	HT
		Underpinning		Performance							Whilst the number of applications approved was marginally down, the	
2c.	Number of applications approved	principles (1,8)	Quarterly	report	1500	384				3		HT
											The application refusal rate has been maintained at a historically low level of	
											just over 4%. This reflects the positive approach which the team is taking to	
		Underpinning		Performance							guide applicants to submit schemes that are compliant with the policy	
2d.	Number of applications refused	principles (1,8)	Quarterly	report	65	14					4 framework.	HT
		Underpinning		Performance								1
2e.	Number of applications appealed	principles (1,8)	Quarterly	report	30	7					7 The number of planning appeals fell by 43% in 2012-13.	нт
	Number of times pre-application advice given – planning	Underpinning	,								The pre-application advice service was extended in December 2012 to	1
1	applications and listed building consents	principles (4,5,8)									include charging for advice in respect of historic structures and listed	
1	approace and noted building concerns	p5(p100 (4,0,0)									buildings. Whilst the service is proving very popular, there is concern that	
1			Quarterly								the additional work generated is impacting on core business activity. A	
1				Performance							further review of cjharging rates is plannined to try and help bridge the	
3				report	224	18/46					resourcing gap (we will consult on any changes).	нт
э.				report	224	18/46						ні
1											Disappointingly, the average time taken to process a planning application	1
											worsened during 2012-13, despite work undertaken to review processes.	
		Underpinning		Performance							The main factor appears to be staff turnover resulting from key members of	
4.	Average number of days to process an application	principles (1,4,8)	Quarterly	report	55	60					staff leaving / taking maternity leave.	MR
											There were only two planning appeals determined in the first quarter of 2013	-
		Underpinning		Performance							14 and the number of appeals being received remains low compared to the	
5a.	Number of planning appeals allowed or part allowed	principles (5,7)	Quarterly	report	15	0					0 historic position.	MR
											Whilst the number of planning appeals continues to fall, the number of	1
		Underpinning		Performance	Baseline - 41.7%						successful appeals has been at a relatively high level in recent years. This	
5b.	Percentage of planning appeals allowed or part allowed	principles (5,7)	Quarterly	report	Target < 30%	0%				41.79	first quarter result is therefore encouraging.	MR
	Of those appeals in 5a (appeals allowed or part allowed),	Underpinning		Performance	0							
5c.	cases which were recommended by officers for approval	principles (5,7)	Quarterly	report	60%	N/A					Unusually, there were no appeals allowed in the first guarter of 2013-14.	нт

									*The drawing to an end of the old energy efficiency regime (including CERT	
									funding) meant that GEEG funding was in far less demand compared to the	
									historic position. Favourable CERT criteria during 2012, before the	
									introduction of the Green Deal, meant that there was little demand for GEEG	
									· · · · · · · · · · · · · · · · · · ·	
									funding. This led to less properties being improved as a direct result of	
									Council funding. The W&W scheme helped draw in CERT funding etc, but I	
		Economic (5),							have initially excluded these improvement figures, although these have beer
